For Immediate Release

Protective Film Solutions appointed as the exclusive UK distributor of Contra Vision® *Switchable* Smart Film™

Contra Vision have appointed Protective Film Solutions (Europe) Ltd as the exclusive UK distributor and installer of their latest product ***Switchable*** Smart Film.

Protective Film Solutions are leading suppliers and installers of Privacy, Security, Blast Protection and Energy Saving Window Films throughout the UK & Europe. Contra Vision's ***Switchable*** Smart Film transitions from transparent to opaque at the flick of a switch, providing excellent opportunities to create instant privacy for meeting rooms in offices, windows of conservatories or glass walls in open plan bathrooms.

Switchable Smart Film works by applying a small electric current to a liquid crystal centre. This causes the liquid crystals to align when switched on so that the glass appears totally clear. When switched off the film becomes 'frosted' again and creates privacy from both sides.

The film is available in two standard widths, 1000mm (38.6") and 1200mm (47.3"). For larger areas, multiple sheets can be joined. The film can be cut to any size at the factory with custom shapes and sizes also available.

END

About Contra Vision

Contra Vision® products transform glass into opportunities for advertising, branding, one-way privacy, solar shading and decorative architectural features, while retaining excellent see-through from the other side.

Our invention started a new type of advertising which spread across the world, making the Contra Vision® brand a byword for one-way vision window graphics. We continue to innovate and have established an unrivalled range of technologies and printable window films, offering unique product benefits to help achieve your vision.

About Protective Film Solutions (PFS)

PFS have gained a global reputation for the successful delivery of many complex multi-site projects for some of the world's leading companies.

We are exclusively trusted by major manufacturers with some of the latest technology in Window Film and Glass Coatings, PFS are committed to the highest levels of installation quality and customer care.
